Science3.5 Food Chains

topic or standard

Directions:

Use the playdough to create a **food chain**.

Requirements:

- Include 3 organisms
- Include at least 1 producer
- Include arrows to show movement of energy

Notes

Science3.5 Food Chains

topic or standard

Definitions:

food chain – shows a food relationship among plants and animals in a specific area

organism – something alive

producer – makes its own food

consumer – eats other living things

(arrow - a way to remember which way to point the arrows is the point them into the mouth of the eater)

Notes

Science 3.5 Food Chains

topic or standard

Example:

Grass

Grasshopper

Mouse

Owl
